

## Finance Manager

### ***Can you guide the company on its growth journey?***

*Flow Robotics A/S is a scale-up company experiencing strong growth internationally. As a spin-out from the IT University of Copenhagen, the company's vision is to revolutionize liquid handling automation in the life science and public health sectors.*

*The technology behind Flow Robotics liquid handling robot, flowbot ONE, enables user-friendly automation of various pipetting tasks. Our robots are already making a difference, for example in assisting professionals working to combat the COVID-19 pandemic.*

*"The robots help us in a situation, where we are in need of more bio analysts, and they help us taking care of our employees, so that they don't get overburdened and get strain injuries."*

- Section Chief at Hvidovre Hospital

*Due to the company's continued growth, we are now looking for a Finance Manager*

## WE OFFER

Are you motivated by the combination of strategic and more hands-on operational responsibilities in a financial role, where you will have a big impact on your position and on the company? Do you want to work in a newly created position, where you will report directly to the CEO and play a crucial role in building a financial function? If yes, then you might be the ideal candidate for this position.

As a member of the management team, you will have an important role in guiding the company, from a financial perspective, on its growth path. You deal professionally with a number of strategic tasks covering business plans, the budget process, ad hoc participation in board and investor meetings and setting up new entities for the international expansion. You play a proactive role in business controlling and assists the commercial and R&D teams in product calculation and new business opportunities.

You will also have a direct operational role covering all elements of financial management, including monthly and annually reports, cash management and invoicing. You will be assisted by external bookkeepers and you will also be the main contact to the auditors.

Finally, you act as the company secretary taking care of bank, loan, and lease agreements and office management including contact to the landlord, facilities, company cars, and staff benefits.

Due to the growth of the company, the position is expected to change over time with interesting tasks and new opportunities for the right candidate.

## WE ARE LOOKING FOR

Most likely you hold a master's degree in business economics and/or accounting and you have more than 5 years' experience in financial management. Most likely you have gained your experience in a small or medium sized company and the ideal candidate has knowledge about industrial production and quality standards.

As a person you are energetic, quality focused, able to prioritize, professional and able to deliver results in a dynamic and sometimes hectic environment. Your background is within finance, but you have a broad interest in supporting the business and growth potential of the company. Furthermore, you are looking forward to being part of a team that have big ambitions and wants to take the company to the next level.

## ABOUT US

At Flow Robotics, our ambitions are global, business is expanding, and this is an opportunity to join an exciting company with international growth potential. On this journey, we need the most driven and capable people on board. You will join 30 colleagues that share the same ambition and optimism about the future, shaping the company as we expand. If you relish the opportunity to really shape the culture and atmosphere of our organisation, now is the perfect time to join.

You will work closely with the CEO and the management team, but you will have touch points with the whole organization as well as the external book keepers, auditors, lawyers and other advisors.

## IS IT YOU WE ARE LOOKING FOR?

The hiring process is carried out in collaboration with Brinch & Partners. If you would like to know more about this opportunity, please contact Partner Martin Bo Sørensen at +45 27847406 or read more at [www.flow-robotics.com](http://www.flow-robotics.com)

We look forward to hearing from you.
